birim

conical chair

Birim is a flower that blooms to welcome you with a retro style in a comfortable embrace.

Birim is an upholstered chair with fabric covering.

Birim is a soft, fluid, never pungent design, which accompanies the lines and shapes to unite them in a single circular design. The fabric upholstery embraces Birim and is sewn onto it, covering it entirely from the seat to the base.

Birim is a small domestic throne that matches the table Layer perfectly.

These two objects establish a dialogue starting from their bases. Both pieces sit atop a truncated pyramid with rounded edges to reconcile the concepts of elegance and charm.
The base widens gently on the back side as it nears the floor. It becomes almost unnoticeable and provides great stability without interfering with the harmony of the design.

A padded seat provides necessary comfort. Moreover, the accentuated tilt of the backrest and its enveloping shape help people relax without compromising the ideal posture to adopt when interacting with others elegantly around a dining table.

birim

wood leg

Birim wood leg chair offers inviting and perfect support thanks to its curved back. This chair is crafted with multiple layers of foam around a sturdy metal frame, featuring extra-thick upholstery for unparalleled comfort. It's available with a fixed four-legged wooden base, combining natural charm with modern design.

birim

pipe leg

Birim pipe leg chair offers inviting and perfect support thanks to its curved back. This chair is constructed from multiple layers of foam around a sturdy metal frame, with extrathick upholstery for ultimate comfort. It's available with a fixed four-legged base or an optional rotatable stativ base.

orb

indoor chair

Comfortable and soft chair at the dining table...

Profiles with deliberately generous sections create a pure and minimalist architecture that acts as the supporting structure for a soft, welcoming, and enveloping seat. From this contrast comes project Orb. A fusion of Nordic elements, filtered through a typically Italian sweetness and softness, a search for the perfect synthesis between tension and balance.

orb

outdoor

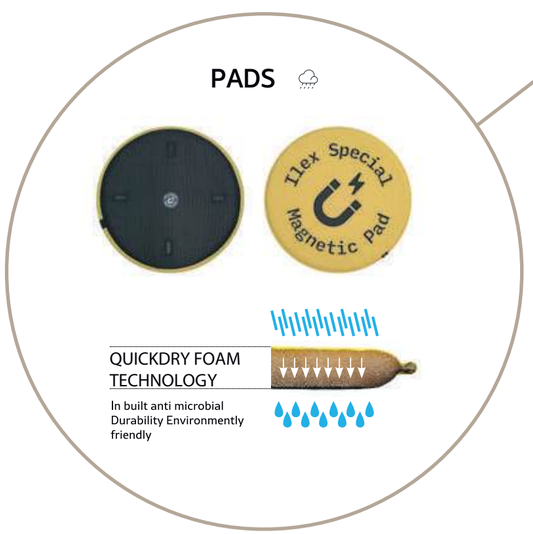

orb chair

orb counter

orb bar

Magnetic detailed outdoor seating pads offer a comfortable sitting as well as the ability to remain stable on the seat.

orb

outdoor chair

Orb is not only an iconic indoor chair, but also an outdoor chair.The structure is in iron tubular and the seat-back surface in hot-galvanized expanded metal. The armchair exploits modern technologies such as double curvature, which, while maintaining the simplicity of the single tubular for legs and armrests, makes it possible to amplify comfort with the armrest that extends to the body to support the elbow.

rio

bar sled leg

Rio is designed and created for use in public spaces like restaurants, hotels or offices as well as residential spaces.

rio

bar pipe leg

Rio barstool brings a new perspective to the iconic shell chair

Rio stool has a textured, matte surface and soft, inviting touch. Rio is designed with friendly, embracing curves that provide extensive comfort to its user while taking up little space in the room. With different options for the bases and the upholstery allwos the customer to expres its creativity.

The design balances finely between the refined and the relaxed. Rounded contours emphasize the inviting volume of the full upholstery and are framed elegantly by the solid wood base or by the light metal. A backwards-leaning backrest and cheekily angled legs give edge and attitude, resulting in a design of timeless and nonchalant elegance.

rio

bar height adjustable

A column base with height adjustment mechanism, a footrest and a covered seat, this is the Rio counter bar stool from the Rio collection.
Its modern design, its elegant beauty, the ability to furnish every space in any situation and the offering of comfort, make the Rio bar stool an accessory appreciated by everyone. Rio bar is the stool without armrests covered with fabric, leather or eco-leather with wide choices of colors and textures.

Where simplicity
& elegance meets:

City

The City brings an elegant touch and contemporary style to the offices, hotel (hospital) lobbies and even to your home...

You will lose track of time with the City.

City Sofa offers comfortable and well-balanced seating designed for everyday use.
Its supportive seat and backrest provide lasting comfort, while the slim metal legs add a clean and refined look.
Suitable for residential and professional interiors, City Sofa adapts easily to different design concepts and project needs.

City Sofa is designed to provide balanced ergonomic comfort with a durable internal structure suitable for long-term use.
The seat construction combines solid beechwood, elastic webbing, and high-resilience (HR) foam to ensure lasting comfort and structural support. The backrest is formed with beech plywood and HR foam, offering consistent support while maintaining its form over time.

You will lose track of time with City.

The sofa stands on slim metal legs finished with electrostatic powder coating, providing stable support and a clean, refined appearance. Upholstery is available in fabric or genuine leather, allowing City Sofa to adapt easily to different interior concepts and project requirements.

LOTUS

Lotus Modular Sofa is designed as a flexible seating system for professional and project-based interiors such as offices, hotel lobbies, waiting areas, and public spaces.
The system is built on a durable internal structure formed with solid beechwood, ensuring long-term structural stability. Seat and back modules are constructed with high-resilience (HR) foam combined with elastic webbing to provide consistent comfort and shape retention under intensive use. The sofa stands on compact metal legs finished with electrostatic powder coating, offering durability while maintaining a clean and minimal visual presence.

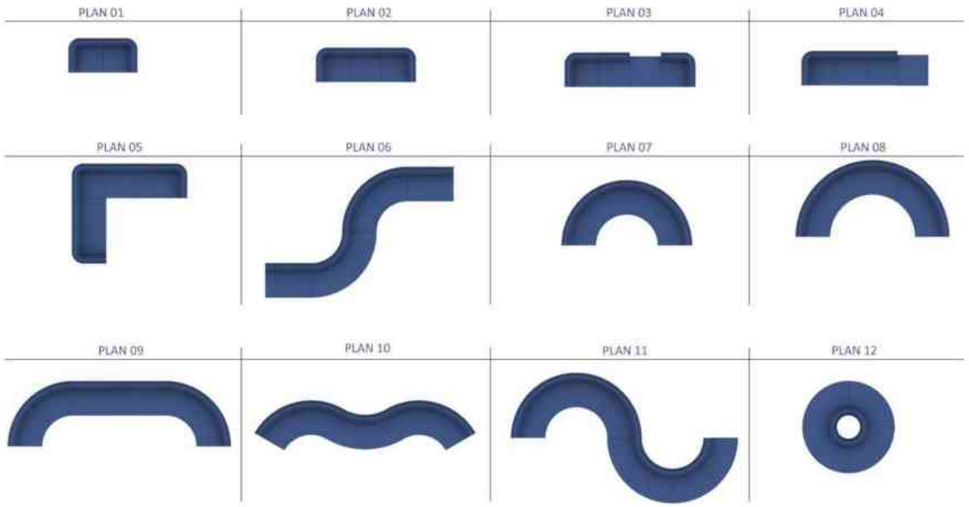

The New Interpretation of Modular Comfort

Lotus Modular Sofa consists of right and left corner modules, a straight backrest module, and a pouf module. These elements can be combined freely to create different configurations according to spatial needs and layout requirements. Upholstery options include fabric as well as faux or genuine leather, allowing the system to adapt easily to various architectural concepts and interior projects.

MOON

With its curved, embracing back, the Moon Sofa pulls the user intuitively into the deep, comfortable seat modules, fully upholstered to the ground.

Further elevated by thin armrests and backrests, the design fosters a sense of sophisticated sharpness andcraftsmanship, conveyed through exaggerated piping details along the edge.

MOON

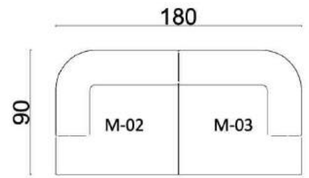

b e f l e x i b l e

Thanks to its many different module dimensions you may create many different width options. You may go as big as you like. With its dignified look and strength, it reflects sense of confidence. Suitable for use in break rooms, waiting rooms in hospitals, educational institutions in living areas, exhibition center common usage open areas, business centers, and lobbies.

This table offers a strong and architectural pedestal design with a solid metal base. Its clear geometry creates a confident presence while remaining balanced and practical for everyday use. Suitable for meeting areas, collaborative spaces, hospitality environments, and shared interiors, the table adapts easily to different layouts and functions with a wide range of tabletop options.

The table is available with a wide range of tabletop shapes, including round, square, and rectangular configurations, making it suitable for diverse layouts and functional requirements. Thanks to this flexibility, the table can be used comfortably in meeting areas, collaborative workspaces, hospitality environments, and shared spaces.

The table adapts easily to different layouts and functions with a wide range of tabletop options.

A broad selection of tabletop materials is available, including MDF laminate, lacquer, veneer, ceramic, and marble, enabling the table to adapt to different interior concepts, aesthetic preferences, and project needs. With its robust metal base, adaptable sizing system, and extensive tabletop options, this table offers a versatile and refined solution for professional interiors where durability, flexibility, and clear design language are essential.

Designed for modern needs, this table can be customized with an optional integrated charging unit (USB & C type), allowing you to add connectivity exactly where you need it.

PALMON

This table offers flexible use with three different leg design options, adapting easily to various spaces and needs.
Suitable for both indoor and outdoor environments, it is ideal for a wide range of settings such as cafés, hospitals, meeting rooms, and commercial areas. Its durable construction combined with a modern design ensures long-lasting performance while maintaining a clean and contemporary appearance.
